10. Remarks:

The Board accepted BridgeNY Culvert funding for this project as part of Resolution 115 of 2022. BridgeNY Culvert grant funds are capped and any costs that exceed the grant amount must be borne by the County. The grant award included \$697,600 for construction and the budget amendment makes up the difference of \$283,545 for the contract award of \$981,145.

Cost escalations can be attributed to changes in NYSDOT asphalt and concrete specifications since this project was estimated in 2021, staged construction vs. an on-site detour that was originally anticipated and difficulties in sourcing available precast concrete for this project.

Explain

Addressing the items emailed in order as they appeared

1) (2) Each NYS DEC Unpermitted Discharge Actions Plus Consent Order R4-2018-1218-210 relate to the storage of bulk road salt at the Coeymans Recycling Center, LLC Facility (Case No. NYR00F372).

It was determined by NYSDEC during a routine inspection that the bulk road salt piles that were stored on site and covered by tarps were "Large Piles" and therefore the storm water coverage within our multi-sector general permit (MSGP) did not apply. We contend that we followed best practices within our MSGP, however NYSDEC disagreed. Ultimately a consent order was agreed upon, we built 2 buildings to move the salt indoors, and no bulk road salt is stored on the Coeymans Recycling Center, LLC site at this time, and the consent order is closed.

2) The EPA inspection resulted in minor findings, and no penalty that were all rectified as detailed in the response letter, we continue to monitor these areas monthly and address any issues found.

3) The Carver Sand & Gravel, LLC Order on Consent was regarding mining within our quarry in Middleburgh NY. The blasting benching process resulted in mining over the allowable area, while still within the life of mine. Previously only the life of mine was physically staked out as required by our permit, however now all benches are clearly marked with the blasting limits.

4) The Solid Waste Order on Consent for Coeymans Recycling Center, LLC R4-2018-1217-213 was regarding the change in classification of recycled concrete aggregate from a beneficial use to a solid waste, this is currently under enforcement discretion with NYSDEC and we are working closely to monitor the outcome of new regulations. We have applied for closure of this consent order and are awaiting response from NYSDEC.

5) MSHA Violation #9414650 was regarding an operator that we moved from one of our satellite locations to our main quarry. This individual was tasked trained but it was not documented, and the individual was incorrectly digging into a pile of shot rock on 9/26/2018 resulting in a violation due to the incorrect digging and undocumented task training. The corrective actions were to implement tracking of all task training on our network, with visibility to all managers, and zero tolerance repercussions for any operator working in a non-documented manner, both for the operator and their manager.

6) Case No. NY-CP4023030970 was regarding a third-party engineer that failed to comply with stormwater reporting. This violation was resolved through a civil State Administrative order on Consent.

7.6 Other than previously disclosed, been the subject of any citations, notices or violation orders; a pending administrative hearing, proceeding or determination of a violation of:

- Federal, state or local health laws, rules or regulations;
- Federal, state or local environmental laws, rules or regulations;
- Unemployment insurance or workers compensation coverage or claim requirements;
- Any labor law or regulation, which was deemed willful;
- Employee Retirement Income Security Act (ERISA);
- Federal, state or local human rights laws;
- Federal, state or local security laws;
- Federal, state, or local tax laws?
